Monarda fistulosa

Important Bylaws

Drinking Water Conservation Plan Bylaw

Between May 1 and October 15 there are restrictions on the times that drinking water can be used for lawn watering, pressure washing and other activities. coquitlam.ca/H2O

Pesticide Use Control Bylaw

This bylaw bans most conventional pesticides, including products labelled herbicide, insecticide, fungicide or combined fertilizer/ herbicides for use on all residential and City-owned land in Coquitlam.

coquitlam.ca/Pesticides

Wildlife and Vector Control Bylaw

This bylaw requires the harvest of fruits and vegetables and removal of fallen fruit from private properties to prevent attracting and feeding wildlife. coquitlam.ca/UrbanWildlife

Water Wise Plant Guide

Water wise gardening supports attractive landscapes that use less water and are more resilient to the impacts of climate change.

By choosing drought-tolerant plants, you can help conserve drinking water and maintain sustainable gardens during hotter, drier summers.
