The Spirit of Maillardville

Creating a Sense of Place . . . Creates a Sense of Community

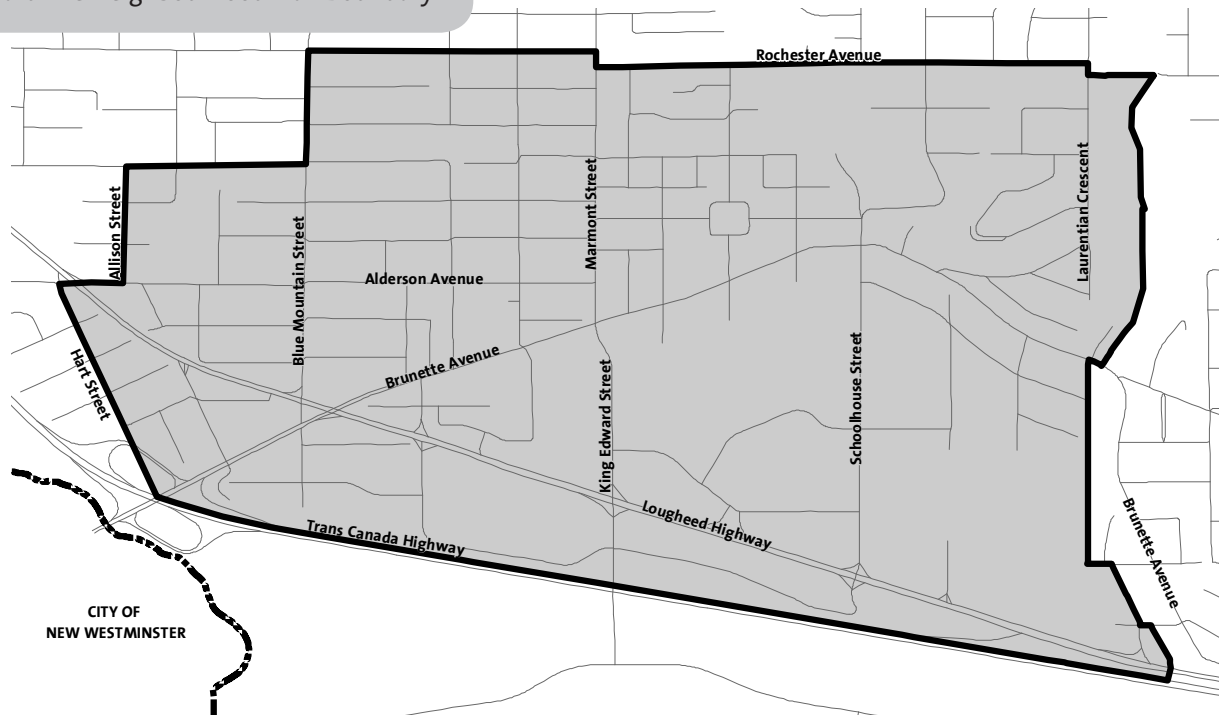

Attractive neighbourhoods tend to be more than just a location or space. They are places that are well-defined with meaning and distinct character. As places evolve over time they reflect the values, ideals, history and activities of the people who live there. As Maillardville continues to evolve, its sense of place is grounded in the relationships between landscape, open space, built forms and people. Join us for the Public Talk, the Design Workshop, or both as we explore the future of Maillardville.

Some of the key themes we will explore:

- » What is our vision for the future of Maillardville?
- » How do we create and enhance neighbourhood character?
- » How do we establish a well-defined sense of place?
- » What is distinct about Maillardville that makes it a community like no other?
- » What character-giving traits exist in Maillardville that should be retained or established?
- » How do we balance heritage and history with the needs of new residents and businesses?
