- Fish Passage Barrier
- Pond
- City Boundary
- Neighbourhood Plan Boundary
- Local Street (Conceptual)
- Arterial / Collector Streets

PARTINGTON CREEK NEIGHBOURHOOD PLAN

Adopted: July 8, 2013
 Last Amended: June 19, 2023 Bylaw No: 5213, 2022

Map Projection: UTM Nad1983
 Prepared By: Planning & Development
 Source: City of Coquitlam - OCP GIS layer

*DISCLAIMER

Local roads, lanes and servicing are tentative, as final subdivision layout is subject to review by the City's Approving Officer.

Watercourse protection development permit area policies may apply. This map presents a preliminary assessment of known watercourses, but not necessarily their exact locations. Other permanent and intermittent watercourses may be identified over time as development plans are undertaken. Fish habitat values, top-of-bank surveys and biophysical and hydrological characteristics of these watercourses will need to be evaluated by development proponents at the development permit stage. Streamside protection measures will be determined, as appropriate, in consultation with senior government regulatory agencies. In addition, formal authorization under section 35 of the federal fisheries act may also be necessary.
